

GARDEN'S EXPLORER

GIANT LEAF TREES

Dwarfs in the garden did a mess during the night and all tree's labels were lost. So, we need to identify all of them again. Could you help us? Let's start with trees!

You will need to find the trees pointed out on a map and draw their leaves. Do not forget to assign a correct name of tree to the leaf you traced.

1. *Magnolia macrophyla*
2. *Juglans regia*
3. *Liriodendron tulipifera*
4. *Fagus sylvatica* 'Dawyck Purple'
5. *Corylus maxima* 'Purpurea'
